

**EngagementHealth® Launches Comprehensive Wellness Program with RMB Capital Management**  
*95 percent of RMB Capital Management Employees and Spouses participate in Program*

CHICAGO, IL and WESTCHESTER, IL (June 1, 2009) – RMB Capital Management, an independent, registered investment advisor providing asset management and financial advisory services for individual and institutional investors, and EngagementHealth, LLC., an innovator in employer wellness programs, announced today the successful launch of comprehensive disease prevention and health promotion programs at RMB Capital Management. The EngagementHealth® provides self funded - incentive based wellness programs, that include biometric screenings, health counseling, and individualized targeted risk programs.

“RMB Capital Management is committed to creating a company culture of good health. EngagementHealth® is our selected partner to accomplishing that goal. We are exceptionally proud of the fact that our employees and their spouses showed great enthusiasm and embraced these programs” said Richard Burrige, CEO of RMB Capital Management. “An important factor in our decision to work with EngagementHealth® was the fact that they align their fee with our objective to control healthcare costs and promote healthy lifestyles. We believe comprehensive wellness and a self funded implementation is the right solution for RMB Capital Management.”

Ted Theophilos, CEO of EngagementHealth® stated: “Bringing comprehensive wellness that lowers employers’ healthcare costs by lessening the burdens of preventable chronic disease is the mission of EngagementHealth®. With RMB Capital Management we have demonstrated again that our proven approach to employee communications drives high rates of participation.”

#### About RMB Capital Management

RMB Capital Management combines decades of investment expertise with the depth of personal attention that only an independent firm can deliver. We service high net-worth individuals and families as well as select institutions. We will work to understand your specific needs and deliver high quality service. Coupling our long-term investment approach with proprietary research, we strive to achieve the sound results that both our clients and our own team expect. #### About EngagementHealth®

EngagementHealth LLC is a privately held healthcare company headquartered in Westchester, Illinois. As an innovator in corporate wellness programs, EngagementHealth® offers comprehensive disease prevention and health promotion programs to companies and group plan providers through the United States. The hallmark of EngagementHealth’s service offering is its proprietary self funding model, Participatory Underwriting®, that allows companies and plan providers to implement EngagementHealth® programs without creating any negative budget risk. Offering programs to all employees and spouses, EngagementHealth® specializes in a high-tech solution coupled with a high-touch network of health counselors that work with all participating employees and spouses to address specific health risks. EngagementHealth® and Participatory Underwriting® are registered trademarks of EngagementHealth LLC. An application for patent protection of EngagementHealth’s proprietary program design process is pending in the United States Patent and Trademark Office.
